2.3.1 Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences, using ICT tools.

PREAMBLE

At our Institute, we are dedicated to fostering creativity and providing a dynamic learning environment that goes beyond traditional education. While adhering to the Karnataka University Dharwad syllabus, we emphasize a curriculum designed to enhance creative thinking, innovation, and practical problem-solving.

Our teaching methods include a range of approaches such as lecture-based instruction, project-based learning, multimedia resources, cooperative learning, and blended teaching.

These methods are complemented by experiential learning opportunities like mock trading sessions, hands-on digital tool training, and value-added courses.

By integrating these diverse pedagogical strategies and modern technology, we ensure that students engage deeply with their studies, develop essential skills, and are well-prepared for their professional futures.
